CONTROLS AUTOMATION & SUPPLY

Phive Controls Automation and Supply combines the legacies of three outstanding firms: Lucas Controls, Applied Control Technology, and D.D. Frederick Company. The union of these three companies to form Phive Controls Automation and Supply benefits our clients with the synergy of our product offerings, improved geographic coverage, and a combined 125-year history of exceptional manufacturing partnerships. Joining the expert staffs of Lucas Controls, Applied Control Technology, and D.D. Frederick Company offers our Phive Controls Automation and Supply clients the opportunity to leverage our collective experience, product knowledge, manufacturing histories, and engineering talents. Phive Controls Automation and Supply's mission is to provide excellence in process instrumentation, control systems, and automation solutions with a steadfast commitment to the clients we serve. From three we are Phive.
